SUMMARY

I am an Undergraduate Information Systems for Business student at Ciputra University who is knowledgeable in programming language, enterprise resource planning, and data through tools such as Python, C#, SQL, SAP, HTML, CSS, JavaScript, ReactJs, and Microsoft 360. I am currently interested in being a software developer. With my fast learning abilities and my communication skills, I can adapt to different situations and solve problems along the way.

WORK EXPERIENCE

Lecturer Assistant (February 2023 – Present)
